

Zombie Head Pencil Pull Instructions

Supplies*:

- 9 floral foam bricks
- Paint
- Sandpaper
- Pencil
- Cardboard box
- Colored duct tape
- Hot glue gun
- Butter knife or other blunt instrument used for carving

Directions:

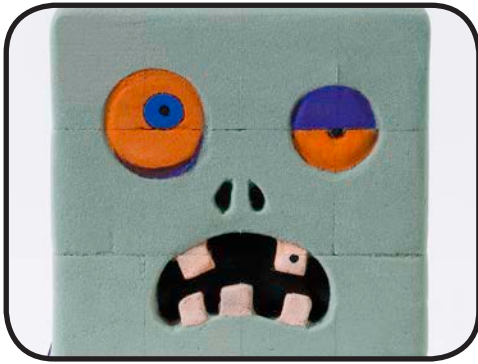

1. Combine three foam bricks together with hot glue. Repeat this step three times.

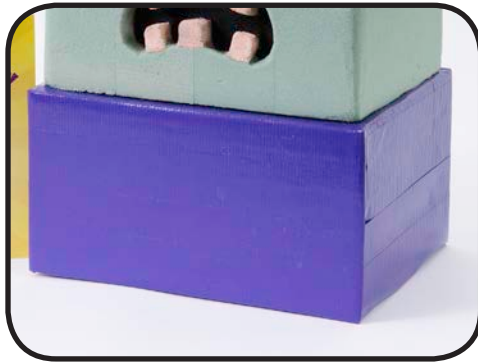

2. Stack the three layers and glue together to form a cube. Round the edges and smooth the sides with sandpaper.

3. Carve out the face with a pencil and a blunt instrument like a butter knife. Press a cup into the foam to make the eye outlines. *(For safety purposes, we recommend wearing leather gloves when using the knife. Never leave the knife where students can pick up.)*

4. Paint the zombie's facial features.

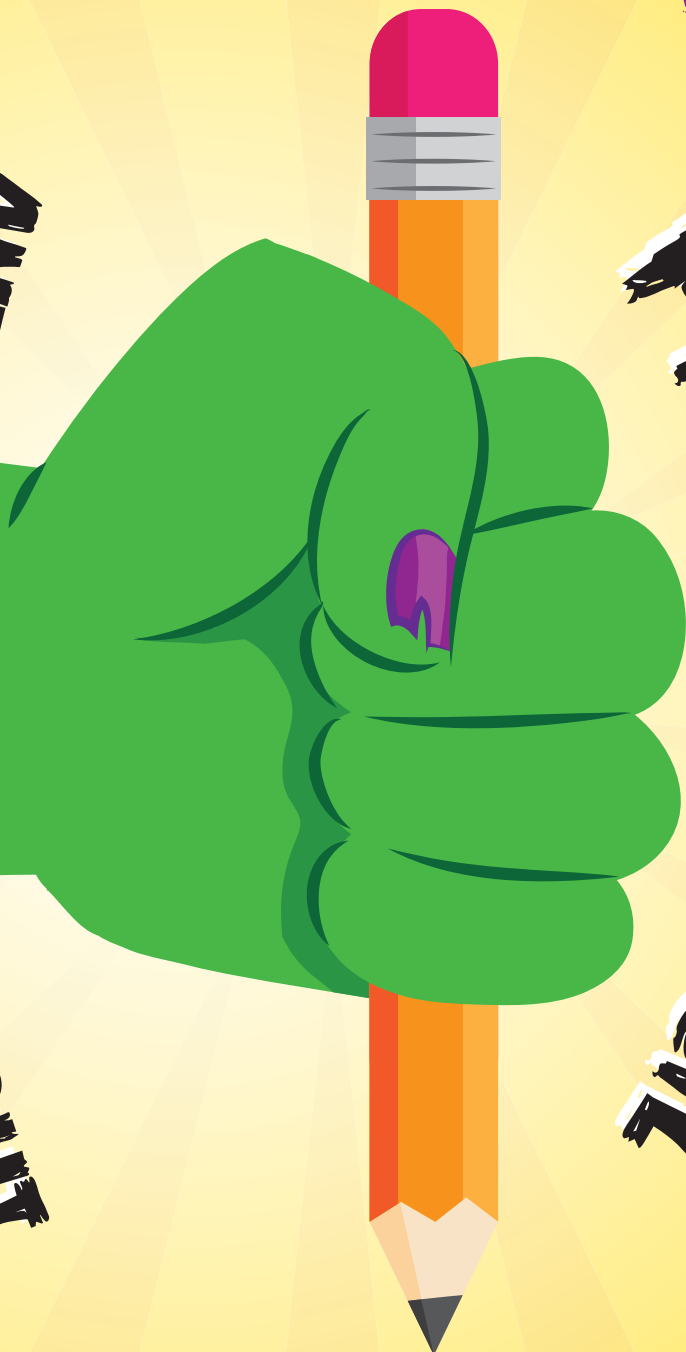

5. Cover a cardboard box with colored duct tape. Glue the head on top of it.

6. Sharpen the tips of a few pencils. Mix them with unsharpen ones and insert the pencils into the top of the head.

*Remember, these are only suggestions. This project should be fun and creative, so use whatever supplies you have on hand for substitutions.
