

Zombie Brain Lollipop Pull Instructions

Supplies*:

- Spray insulation
- Dark and light pink spray paint
- Plastic tarp
- Painter's mask
- Gloves
- Tape
- Large bowl or planter basket
- Aluminum foil
- Lollipops

Directions:

1. Find a large bowl or planter basket. If using a wire planter basket, cover the surface with aluminum foil.

2. Secure the foil to the basket by covering the inside of the bowl with tape.

3. Place the bowl or covered basket on a plastic tarp. Cover the surface with spray insulation in zig-zag patterns to simulate both sides of a brain. Be sure to spray in an open, well-ventilated area. Wear a painter's mask and gloves while handling.

4. Let the insulation dry and harden overnight.

5. Paint the surface with light and dark pink spray paint. Color the tips of a few lollipops. Once brain is completely dry, insert lollipops into it.

*Remember, these are only suggestions. This project should be fun and creative, so use whatever supplies you have on hand for substitutions.
